CARRINGTON ESTATE

KARIKARI E S T A T E

All the wines on the beverage list are from our vineyard Karikari Estate.

Karikari Estate is New Zealand's northern most vineyard & winery. It captures the rich and unique characteristics of the vineyard and produces intensely flavoured and stylish award winning wines that will continue to captivate.

The Winemaker Alan Collinson focuses on traditional methods of viticulture and uses sustainable wine-growing practices in order to minimize the effects on the local environment. Karikari Estate was established in 1998 with the first vintage being in 2003. Grape varieties grown onsite include chardonnay, pinotage, merlot, syrah & tannat. All blocks are hand harvested.

Karikari Estate wines consists of two ranges, the Calypso range & Karikari Estate range. The Calypso range are meant to be consumed in an everyday context and are sourced from the estate & other regions like Marlborough or Martinborough. The KariKari Estate range wines are produced solely from the estate, handcrafted in small volumes with limited availability

KariKari Estate Cellar Door is open all year round for wine tasting & sales.
